Introduction 介紹	Import regulations have always been the key factor in international business and global trade. The seminar brings together medical device industry officials and professionals from the globe to give first-hand information and share experience to help Taiwanese companies understand the import regulations and business opportunities in the EU, Vietnam, Indonesia, Thailand, Cambodia and the Philippines markets. This seminar aims not only to benefit Taiwanese companies collecting vital info but to encourage them to come up with feasible market strategies to develop in the global market. 各國醫療器材法規、認證規範申請流程與當地醫療體系、通路結構等重要商情皆為我醫材廠商於海外拓銷時須掌握之關鍵資訊，為了協助業者了解法規及市場趨勢，以利市場開發佈局並順利輸出產品，特舉辦醫材法規國際研討會，邀請產業專業人士擔任講師，協助我商了解歐盟及新興市場如越南、泰國、印尼、柬埔寨及菲律賓等國的進口法規進程、革新趨勢與市場商機。
