

“Your trusted access to biotech professionals and business partners in EU and Taiwan.”

What We Do

One of the important missions of the Europe-Taiwan Biotech Association (ETBA) is to translate science and technologies into commercially viable applications which people can access to improve their quality of lives. Our mandate covers a broad range of applications including chemical compounds, biomaterials, medical devices and advanced computational algorithms.

To achieve such goal, a spectrum of specialized, multidisciplinary expertise is needed. Therefore, ETBA is dedicated to promote international collaborations and foster business network in the biotechnology and medical device industries across European countries and Taiwan – a Silicon Valley of Asia.

Corporate Membership

As a corporate member of ETBA, you have access to

- Business network in the fields of biotechnology, pharmaceuticals and medical device industries.
- Top-notch talent pool from European countries and Taiwan
- Member-only discounted ticket to ETBA's and our partner's events worldwide
- International exposure of your business
